OMODOJO ANTHONY DAMILARE

FULL STACK DEVELOPER

OBJECTIVE I'm a dedicated and detail-oriented full-stack developer with hands-on experience in the MERN stack (MongoDB, Express.js, React, and Node.js). Proven ability to contribute effectively to innovative projects, with a passion for leveraging technology to drive impactful solutions. Eager to collaborate in dynamic team environments and continue expanding expertise in web development.

SKILLS & ABILITIES

- Programming Languages: JavaScript (ES6+)
- Frontend Development: React.js, HTML, CSS, Tailwindcss
- Backend Development: Node.js, Express.js
- Database Management: MongoDB, Mongoose
- API Design and Development: RESTful APIs
- Version Control: Git, Github
- Tools & Technologies: Visual Studio Code, npm, postman
- Other: Responsive Web Design, Debugging, Problem Solving, Team Collaboration.

EXPERIENCE **Gomycode | Yaba, Lagos State (Freelance Developer)**

November 2023 – Current

Developing high-quality web applications using the MERN stack. Responsible for designing, coding, testing, and deploying responsive and scalable solutions. Collaborate with clients and teams to meet project requirements and deliver on time. Implement best practices in development and troubleshooting. Continuously learning new technologies to improve performance and efficiency.

BH Unicorn Ltd | Epe, Lagos State (Marketer/Auditor)

May 2023 – Sep 2023

Conducted market research and analysis to identify new business opportunities. Developed and implemented marketing strategies to increase brand awareness and sales. Audited financial records and ensured compliance with regulations. Collaborated with cross-functional teams to optimize marketing efforts and financial reporting. Provided actionable insights to improve business operations and profitability.

Top Learners School | Epe, Lagos State (Art Teacher)

Oct 2021 – Jan 2022

Taught art classes to students, fostering creativity and artistic skills. Developed lesson plans and curricula that catered to different learning styles and abilities. Organized and supervised art projects and exhibitions. Encouraged students' individual expression through various art mediums. Collaborated with other teachers to integrate art into the broader educational program. Provided constructive feedback to help students improve their techniques and confidence in art.

EDUCATION Yaba College of Technology, in Affiliation with University of Nigeria, Nsukka

B.Sc. in Art Education

2018 – 2023

GPA: 3.61

Graduated with a B.Sc. in Art Education, achieving a GPA of 3.61, demonstrating strong academic performance and a solid foundation in the principles of art and education.

GoMyCode | Yaba, Lagos State

November 2023 - March 2024

Software Development Bootcamp

Completed a comprehensive software development program focused on the MERN stack (MongoDB, Express.js, React, Node.js). Gained hands-on experience in building and maintaining web applications, collaborating with peers, and implementing industry best practices.

PROJECTS **Personal Portfolio Website** [LINK](#)

Designed and developed a dynamic personal portfolio website using **React** with **Framer Motion** for animations. Utilized **Tailwind CSS** for responsive and modern styling, ensuring optimal user experience across devices. Integrated interactive components to showcase projects, skills, and professional experience effectively, enhancing user engagement and navigation.

Interior Design Company Website [LINK](#)

Developed a bespoke website for an interior design company using **React** for the frontend, ensuring a responsive and intuitive user interface. Implemented **Tailwind CSS** for flexible and aesthetic styling, enhancing visual appeal and user experience. Integrated various features including a portfolio showcasing previous projects, service details, client testimonials, and a dynamic contact form for client interaction. Designed with a focus on modern aesthetics and usability to reflect the company's brand image and attract potential clients effectively.

Food-Delivery Website

Description: Developed a full-stack food-delivery application enabling users to browse menus, place orders, and track deliveries. Implemented an admin panel for managing orders, menu items, and user accounts.

Technologies Used: Built with the MERN stack (MongoDB, Express.js, React, Node.js), integrated Stripe API for secure payment processing.

Role: Designed and implemented both frontend and backend functionalities. Key responsibilities included user authentication, order management, real-time order tracking, development of admin panel features, and seamless payment integration with Stripe.
