EXPERIENCE

- ## GoMyCode, 230 Herbert Macaulay Way, Lagos Nigeria.

November 2023 - March 2024

Volunteered to work as an instructor assistance while also schooling

Assisted instructor in delivering coding boot camps and workshops on web development topics.

Provided support to students in understanding programming concepts and completing coding assignments.

Contributed to the development of curriculum materials and lesson plans for web development courses.

Collaborated with instructors and fellow assistants to create a positive and engaging learning environment.

- ## Freelance.

January 2024 - current

One of the most rewarding aspects of freelancing as a Full Stack Developer is the diversity of projects I encounter. From building responsive websites for small businesses to developing custom web applications for startups, each project presents a unique set of challenges and opportunities to flex my skills and showcase my creativity.

- ## Marketer/Auditor, May-Sep/2023

BH Unicorn Ltd, Epe, Lagos State.

Duties:

• Developing marketing strategies to promote products or services.

• Creating marketing materials, such as posters or fliers for ads, and social media content.

• Evaluating and optimizing marketing strategies based on results.

• Building and maintaining relationships with customers and partners.

- ## Asst. Teacher (Internship)

Top Learners School, Epe, Lagos State.

Developed proficiency in various art mediums and techniques, including drawing, painting, sculpture and digital art.

Acquired practical skills in lesson planning, classroom management, and student assessment, preparing me for roles in art education and teaching.

PROJECTS

Interior Design Website

Description:

Developed a responsive and dynamic interior design website for a client in Nigeria. The website offers a wide range of services, including space planning, bespoke furniture design, and personal interior shopping. It also features a blog with trending articles in interior design and a portfolio showcasing past projects.

Responsibilities:

Designed and implemented the frontend using React.js, ensuring a user-

friendly interface and responsive design across devices.

Integrated Tailwind CSS for styling, providing a modern and visually appealing look.

Implemented a pricing page with grid layout, team page with individual bio pages, and a mission page highlighting the company's values and services.

Developed a login page, signup page, and dashboard for logged-in users, displaying exclusive content and user information.

Integrated Google Maps API for the contact page, allowing users to locate the company's office easily.

Technologies Used:

Frontend: React.js, Tailwind CSS, JavaScript

Backend: Node.js, Express.js, MongoDB

Authentication: JWT (JSON Web Tokens)

Email Notification: Nodemailer

Deployment: Heroku (backend), Vercel (frontend)

Achievements:

Successfully launched the website, meeting all client requirements and deadlines.

Received positive feedback from users for its user-friendly interface and modern design.

Contributed to increasing client's online presence and customer engagement.

Skills Demonstrated:

Proficiency in frontend and backend development using modern web technologies.

Strong understanding of UI/UX principles and responsive design.

Experience in integrating third-party APIs and services.

Ability to work collaboratively in a team environment and communicate effectively with clients.

I have also developed a suite of small-scale applications, including a calculator, clock, and quiz app, using HTML, CSS, and JavaScript. These projects demonstrate my proficiency in front-end web development, user interface design, and

interactive programming.
